

Pairing/Connecting with Your Detector

GPS and iRadar-based features require connection to a **Bluetooth®** Smart ready device and the Cobra iRadar app. For a full list of **Bluetooth®** Smart ready devices visit www.bluetooth.com

Please note, this is the newer **Bluetooth®** Smart technology and pairing is not always done in the same manner and menus as conventional **Bluetooth**. This detector will NOT APPEAR in the **Bluetooth** Settings menu of your iPhone®.

For iPhone® 4S and later with Bluetooth® Smart:

- Power on the detector. If not connected, it will be in the Pairing Mode automatically.
- Make sure your iPhone **Bluetooth** is turned On
- Start the Cobra iRadar application. Press the Menu icon in the upper left corner of the app and select Devices. Follow the onscreen instructions to complete the pairing and connection.
- When complete, you will see "CONNECTING" appear on the detector screen.

For Android™ :

- Power on the detector. If not connected, it will be in the Pairing Mode automatically.
- Make sure the your Android™ device's **Bluetooth** is turned On and go to the **Bluetooth** Settings Menu. For most devices this can be found by pressing; Settings > **Bluetooth**.
- Press Scan for Devices and/or wait for the device list to populate and then select iRadar. Pairing can take up to 30 seconds.
- The phone might show "Paired but not connected" in this menu. That's OK as the connection will be completed after opening the iRadar App.

For more information on pairing with **Bluetooth** devices consult your phone's owners manual.

If you are having trouble initializing or maintaining your **Bluetooth** connection completely turn off your smartphone and detector device, wait 30 seconds, and then turn them back on.

iRadar Community

When you, or any other iRadar user, detects a radar or laser signal the alert information is anonymously sent to Cobra's cloud servers. Within seconds, that information is processed and displayed on your map as part of a Threat Area.

As you approach a specific Threat Area you will hear a short beep and then the app will indicate the Cobra's assessment of the reliability of the threat.

High-Threat Area means multiple reports have confirmed a legitimate threat in the area recently.

Medium or Low-Threat Area means signals have been detected but have either not been confirmed or have not been reported lately.

Paying attention to threat areas will allow you to be warned of potential threats before you enter radar detection range. Community Radar/Laser alert sharing means that you have an entire network of users working to keep you and your wallet safe.

Threat Area Alert **THREAT AREA**

Threat Area alerts will also be displayed on the screen. The Detection Scanner will stop moving and become a solid bar that will blink.

Using the Report Button

You can report to the iRadar Community when you see an active police speed enforcement by pressing the **MENU** button for 2 seconds.

Location Based Alerts:

LBA Only:

The distance will count down as you approach the Location-based Alerts (LBA) Area.

The alert types are:

LBAs will start as you approach the actual location. If both a radar and Location-based alerts happen at the same time, both will be displayed side by side.

Responding to Alerts

Description	Interpretation	Recommended Response
Tone repeats slowly at first, then speeds up rapidly.	Probably police radar.	FULL ALERT
Tone sounds one time only.	Probably a false alarm.	Exercise caution
Tone repeats slowly as you approach a hill or bridge, then speeds up sharply as you reach it.	Probably police radar beyond the hill or bridge.	FULL ALERT
Tone repeats slowly for a short period.	Probably a false alarm.	Exercise caution
Any type of laser alert.	Laser alerts are never false alarms.	FULL ALERT

Screen Saver

Your detector has a Screen Saver mode. When Screen Saver is turned On (factory default is 3 minutes), the screen will change to Dark from it's Bright, Dim, or Dimmer setting after the time interval selected. While the screen is Dark, a small white dot will move on the screen to indicate the unit is turned On.

Note: While Screen Saver is activated, any alert will turn the display back on at the last brightness setting (Bright, Dim or Dimmer). Touching any button will also turn On the display.

Highway, City, City Max and AutoCity™ Modes:

Highway Mode provides full immediate response to all signals detected. Use this mode when you are driving on interstate highways. Automatic door openers operate in X and K-band frequencies.

To minimize unwanted false alerts in an urban environment where these sources exist, use one of the City Filtering Modes below:

- Highway:** Maximum long range alerting.

Highway

- City:** automatically mutes X-band audible alert until signal strength reaches level 3 or above.

City

- City MAX:** Maximum filtering against urban false signal sources.

City Max

Illumination

The display illumination intensity can be adjusted to suit driving conditions with three levels and Dark Mode:

- Factory default is **Bright**.
- Use **Dark** mode to blank the screen for discreet use. In this mode, alerts will sound but not show. (A small white dot will move on the screen).

You can adjust the illumination by pressing the **Dim** button repeatedly to step through the levels.

Auto Off Mode

Your detector includes an Auto Off feature - when turned On, it will turn off the detector after the selected amount of time. The detector will turn off after this time if no alerts are detected and no movement is sensed from the iRadar app. The options are 30, 60, 90 minutes or Off. The default setting for this setting is Off.

Note: This feature should only be used if your detectors power switch does not turn off with the vehicle's ignition. In addition, we recommend to only enable this feature if you use the detector with the iRadar app. Using it with the app will prevent unintended shut downs on longer trips.

Advance App Controlled Functions

This detector is capable of supporting some advanced functions controlled by the iRadar app. They are not in the detectors Settings Menu, and are instead easily adjust and changed in the iRadar App.

SpeedMute™

This feature will automatically mute unwanted alerts while driving below a selectable speed setting. This can be turned On and Off and the speed setting adjusted in the iRadar app.

AutoCity™

This feature automatically switches between Highway and City modes based on speed and other information from your smartphone. It can be turned On and Off in the app.

Phone Mode Advanced Audio Routing Over Bluetooth

Select "Phone" for Alert Audio in the iRadar app. Managed audio is sent to the vehicles stereo via Bluetooth or wired Aux Input. Alerts can also be sent to a Bluetooth headset.

Auto Mute Mode

When Auto Mute is On, the audio volume of all alerts is automatically reduced after 4 seconds. The signals will remain muted for as long as the signal is detected. When Auto Mute is Off, the alerts will sound at full volume for as long as the signal is detected. The factory setting for Auto Mute is On.

Voice or Tone Mode

You can set your detector to sound alerts and confirm menu settings with either a Voice or a Tone Alert. Voice Alert provides voice messages in addition to tones. Tone Alert provides tones only. The factory setting is Voice Alert.

Quiet Drive™

Quiet Drive is a muted driving mode for times when a driver wants less audible feedback while talking with passengers, on the phone, etc. This mode is Off by default. If switched On, it will turn to Off again after the detector is power cycled. When Quiet Drive is On, the display will Show "QUIET" on the Standby Screen like below.

Note: You can also enter Quiet Drive by Pressing and Holding the Mute Button.

For any questions about operating or installing this new Cobra product, **PLEASE CONTACT COBRA FIRST**...do not return this product to the retail store. The contact information for Cobra will vary depending on the country in which you purchased and utilize the product. For the latest contact information, please go to www.cobra.com/support

For products purchased in the U.S.A. you may also call 1-773-889-3087.

For Products Purchased in the U.S.A., if your product should require factory service, please go to www.cobra.com/support and follow the instructions for returning your product to the Cobra Factory Service Department for service.

Limited 1-Year Warranty

Cobra Electronics Corporation warrants that this product and the component parts thereof, will be free of defects in workmanship and materials for a period of one year from the date of first consumer purchase. This warranty may be enforced by the first consumer purchaser. If the product is under warranty, it will be repaired or exchanged depending on the model as determined at Cobra's sole discretion. Such remedy shall be your sole and exclusive remedy for any breach of warranty.

The procedure for obtaining service and support, and the applicability of this warranty, will vary depending on the country or jurisdiction in which you purchased and utilize the product. For the details on obtaining product service, support and warranty please visit www.cobra.com/support

Provided that the product is utilized within the U.S.A.- Cobra will, without charge, repair or replace, at its option, defective products, or component parts upon delivery to the Cobra Factory Service department, accompanied by proof of the date of first consumer purchase, such as a duplicated copy of a sales receipt. You must pay any initial shipping charges required to ship the product for warranty service, but the return charges, to an address in the U.S.A., will be at Cobra's expense, if the product is repaired or replaced under warranty.

This warranty gives you specific legal rights, and you may also have other rights which may vary from state to state and country to country.

Exclusions: This limited warranty does not apply: 1) To any product damaged by accident; 2) In the event of misuse, ordinary wear, failure to follow directions, or improper maintenance of the product or as a result of unauthorized alterations or repairs; 3) If the serial number has been altered, defaced, or removed; 4) If the product was purchased or is utilized in a jurisdiction not covered by the limited warranty.

All implied warranties, including warranties of merchantability and fitness for a particular purpose are limited in duration to the length of this warranty. Cobra shall not be liable for any incidental, consequential or other damages; including, without limitation, damages resulting from loss of use or cost of installation.

Some states and countries do not allow limitations on how long an implied warranty lasts and/or do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you. This warranty gives you specific legal rights, and you may also have other rights which vary from state to state and country to country.

Optional Accessories

You can find quality Cobra products and accessories at your local Cobra dealer, or in the U.S.A., you can order directly from Cobra at www.cobra.com
